

Robert: Good morning. This is Robert with, Well, What'll It Be podcast coming from you on the US of A, and wherever you are in this world, whether it be morning, afternoon, or goodnight, welcome aboard. I'm going to talk to you today about a special place called the kingdom of God or the kingdom of heaven and the difference, and where your place is in it or not in it, and being born again is how you enter it. Let's talk about the kingdom of God, kingdom of God and the kingdom of heaven. The kingdom of heaven is given the name heaven because it is in the unseen world. Now you're in a physical body here on earth, and you can not see heaven because it's invisible to you. The kingdom of God is on eEarth now. And it acts as a island from ,say, you were born in great Britain,

it's an island, but it's a heaven as a person. Not anywhere like it, but then you are on an island of the Bahamas or something like that. Bahamas is owned by Britain at the time long ago and God, the kingdom of God is on earth. It is wherever you are born again, you're in the kingdom of God on earth. And wherever your feet plant themselves, there the kingdom is. And if you ask for and receive the Holy Spirit, who can talk to God the Father, the argument is you can't do one against the other, because if you say one thing to one person, all of them know it. Okay. That's why you say our father who art in Heaven. Hallowed be thy name, thy kingdom come, they will be done. Thy kingdom come, that's prayer. You're asking God, the Father to send his kingdom to earth. And he has in the form.

Jesus brought back what, oh man, went blank, sorry, Adam lost, what Adam lost was put in place by God as a governor of earth. And when Lucifer chairman angel, decided to confuse Adam and Eve which was the same. And one is male and one is female, but Lucifer decided it was all him and Jesus brought the kingdom back after many years and has reinstated the kingdom on earth. And to let you know, the Kingdom of God has never been defeated and never will be defeated. There is no higher power than God. None, not even Lucifer, a little old cherub, that God created. So what's the worry? God knows, and it's his will that everybody does not perish and will have everlasting life, that everybody's coming to the kingdom, the sooner you do, the better you are going to be, and you need to understand the kingdom.

It has laws where you don't have law. You don't have, you have chaos. You have confusion, there must be laws. And you don't have to worry about following law because the Holy Spirit will be in you because he has the power. He has a memory. There's a discussion I had. What does it mean to have the mind of Christ? It means you can understand the word of God better and with the Holy Spirit, of course, and then you can would not. And I've had a relative that I knew you said the Bible has been disproven. And I started asking a few questions [inaudible 00:04:56] this first time, never been born again, had, maybe had read the Bible, but didn't, have a proper interpretation of what did it mean. You can't know everything about the God, unless God is in you, then God can explain things to you in the manner of the Holy Spirit.

But anyway, back to the kingdom, the kingdom is what you're looking for. Understand. It's not a new place on earth it's not a so placed in another galaxy far, far away. You know, the Kingdom of God is now. It's a spiritual kingdom, but nonetheless it's on earth, it's now. And it was always what we were supposed to be before we were interrupted.

But God always gets his way. He wanted the earth, the seen world like heaven. And if you're a son adopted, or the verse "begotten Son" or "the only begotten son of God" then you can come back and forth as well. Whoever's the son says is free, is free. Indeed. You can go, but you had to be careful about wherever you place your, your body. Usually at night, while you sleep, you could ask Jesus, who's a son and he is also the king of the kingdom,

if you can go to heaven. And you can, if he says, okay, well, the Holy Spirit is in you. He will escort you, he's your mentor. He'll tell you about the unseen world. And what we're supposed to be doing as kingdom citizens is expanding the kingdom. You should act like and talk like, and be like forever on earth, like a kingdom citizen. A citizen, not a member, of course a member, but it's more your citizenship. You some can say that you have one in wherever country you're at, you are in a physical or you have a citizenship in a country. And then you have a spiritual world, but you're not in two places, you're all the one or the other. You can have a body because it lets you on earth. God wants to expand his kingdom, which is primarily an unseen world a spiritual world, into the physical world.

And the physical world are ruled by the spiritual world. As what's inside of you, what's inside of you will come out for everybody and be, God's intent is that every body be born again and part of the kingdom's citizens. Having the Holy Spirit in them, and there will be no more war. There won't be dead bodies everywhere. There won't be stealing. There won't be corruption, all that stuff exists, Hey, there's none of that at all on heaven.

And there will be no one like that on earth. And we'll always have one, but God does not want what we call robots. The same, like cookie cutters. We won't have the same different personalities, but the same belief system and the willingness to do just that. God wants to know you. If you want to be a part of his hand, if you be a part of his kingdom, like I said, and God, it says in the Bible and I want to say, Bible is Latin for book, and Holy is pure or perfect. So you can say the perfect book or whatever is written in it, it warns in revelation in the last chapters that anybody changing, any words, or words in it has a curse on their body, on them.

Anyway, the kingdom of God has a best place for you always and sooner or later, whatever it takes, you are going to be, you will voluntarily understand why you need to be in the kingdom because when you are born again in the kingdom, you are getting a set of keys that unlock certain things. And the Holy Spirit will explain those things. Like heaps of wealth. And you can have all of the wealth you want. You can have all the food you need while you're here, because you are a citizen of heaven in there called you're on an ambassador tour. You're representing the kingdom of heaven. God's kingdom, and the kingdom of God, on earth, where you are. You are to be in the physical world like you are in heaven. That doesn't mean grow your hair long and wear a white robe and all that stuff.

It's just the character in you. I'm not saying I'm God. I have certain capabilities. Or like him, and I go more and more like him every day. And so start on that path. It takes time.

And one thing, that God has above all is time. He created time. He says, when things start and when things end, he's alpha and omega, the beginning, and the end. So nobody can test that. God himself, period. Well you say you don't believe in God. Well, that's because you're spiritually dead. If you're spiritually alive, you'll know this and you'll know who God is. For sure. Because you're spiritually dead, the consequences of Adam in the garden, who really said he could be more than he really was. You can only be what God says you are.

If he says you're a son, then you're a son. If you're a reprobate, you're a reprobate. But one way, your son, you can get close to God and therefore they will have power. Otherwise, you will be farther away, you'll soon be saved because he paid the sin debt, but you're going to be in paradise, paradise, nice place. It's nice on the earth, the physical world. But our place is, we were created by God to colonize the earth. And so the more people we can plant seeds in and the Holy Spirit can take them and make them citizens with us, they want to be, he can only suggest things to them. They have their own free will decide to come into the kingdom. If they owe that God will wait and wait and wait, and it might be several lifetimes before they finally come in. Nothing in a Bible I have ever read will say, it looks plainly in time, but people seem to want, they want the world to end before they die, I don't think it is a physical death.

And it doesn't say that. It's just one. You either are in the flesh and you're trying to advance the kingdom or you're in heaven, but only in temporary in heaven, he didn't make us to live in heaven. We can go and come, but he made us to advance the kingdom of God on earth. Like it was in the beginning and we will so fill the earth with born again people and filled with the Holy Spirit. So God can communicate with everybody at one time. Don't break down. He can talk to everybody or just one person.

So here's the thing. Do your best. Go to Jesus, start talking to him. And he'll start talking to you, and ask for permission to enter the kingdom of God, which is what he wants and give you a new spirit and you're in the family of God. And he will give you the Holy Spirit from God, the father. And he was your mentor. He will teach you about the kingdom. And what is my place? I'm like a commercial. I'm going to tell you the good things about it, there are no bad things. The all is good things. All of God. Life is beyond belief.

I will say this one thing, and that's important to you now. God does not give you a job. He may give you work, and most likely will. Because you got to have something to do. Otherwise, you're going to get bored and in heaven, you don't age, you're always young. You're virile, you can do anything that God would allow you to do. But anyway, I've rambled along. I forgot my master Marta say, I don't want to get down to the nitty-gritty. No. It's know how you get your power or to do with it.

And so forth. Live like little goddesses. I'm not saying that I'm God, I'm not. I am an obedient servant very proud of that. So till next week, this is Robert with What'll It Be podcast. Drop me a line. There's email on my website. I won't be podcast.com. [inaudible 00:16:11] See you in the kingdom.
